Dear Parents and Carers

Description/Educative Purpose:

The use of online educational resources and cloud-based storage are selected and used by Belridge Secondary Education Support Centre to improve student learning outcomes. Our school and teachers make decisions about the best technology to meet the needs of our students. Services may be accessed through a web browser, desktop software or application on a tablet device.

Belridge Secondary ESC wishes to utilise some or all of the third-party application provider/s listed below to support students' learning, depending on the student's year level and ability. These providers require varying levels of personal information to be disclosed to them. Please note that while every reasonable effort is made by schools and the Department to prevent student exposure to inappropriate online content when using Department provided online services, it is not possible to completely eliminate the risk of such exposure. The Department encourages close family supervision of all internet use by children in locations other than school and strongly recommends the use of appropriate internet filtering software. Advice on managing internet use at home can found on the Office of the E-Safety Commissioner website (www.esafety.gov.au/iparent).

This authorisation form attached is applicable for all enrolled students from Year Seven to Year Twelve at Belridge Secondary ESC. Parents with multiple children must complete individual forms for each child from Year Seven to Year Twelve.

In the following sections, we will indicate the reasons why we use the service, what information will be required, who may have access and where the data is stored. Please visit the links for each provider if you would like to know more about their terms and conditions and/or privacy policy.

Three types of risk assessments:

- No consent required.
- Notification of 'Minimal Risk' services.
- Consent for 'Medium Risk' services.

We believe that the online educational resources we use contribute significantly to the academic and social/emotional learning that we target here at Belridge Secondary ESC and we ask that you approve each application for your child to use.

Additional event details:

Online services are essential tools for our teaching, learning, and school administration. These include websites, web and mobile applications delivered over the internet. Providers of Online Third Party Services are external to the school and sometimes hosted outside of Australia.

Please read the attached PDF and provide consent for your child's information to be shared with the listed online services
